

Are you looking for a good protein to help with the collagen deficiency in your body?

WHAT IS EZE COLLAGEN?

A protein that is good for your body and EZE to use. A scoop or 2 can easily be added to virtually any drink or food, or even just dissolved in water.

RECOMMENDED DOSAGE

1 Scoop (10g) dissolved in water or added to your favourite food or drink.

APPLICATIONS OF HYDROLIZED COLLAGEN WITH VITAMIN C

- Lean muscle gain
- Muscle tone
- Skin thickening and toning
- Joint rebuilding
- Arterial strengthening
- Thickening of hair and nails
- Increased energy
- Organ rebuilding

YOU CAN MAKE UP FOR THE DECREASE THROUGH A DIETARY SUPPLEMENT OF HYDROLIZED COLLAGEN WITH VITAMIN C

When collagen is ingested as a foodstuff in combination with Vitamin C, it will be fully absorbed into the bloodstream within 20 minutes. It is then delivered to the collagen and related target repair sites as needed.

WHY HYDROLIZED COLLAGEN WITH VITAMIN C?

Collagen is the largest and most abundant protein in our bodies. It diminishes as we age.

YOUR

- Arteries
- Joints
- Organs
- Muscles
- Skin
- Digestive Tract
- Tendons
- Heart
- Ligaments
- Lungs and Bones

ARE MADE UP OF COLLAGEN
